Acura TL Brake Warning Light Causes. The brake warning light indicates that your TL has detected that one of its major brake components has failed, typically detected through a loss of pressure. You'll feel a loss of pressure that manifests itself in the form of a "mushy" brake pedal. If the brake light is only coming on when you push the brakes, that's a definite indication that the pressure in the brake system is too low. Either the brakes need bled, or there is a leak. Brake Fluid ...

The first-generation Legend, introduced to Japan October 22, 1985, was the first production Honda vehicle to offer only a SOHC V6 engine worldwide. The introduction of the Legend also coincided with the launch of a new dealership sales channel in Japan, called Honda Clio. The Legend was the result of a joint venture with Britain's Austin Rover Group called Project XX that started in November ...
